

Design for Safety

-Research and Education on Design for Safety at the RCA-

Professor Ashley Hall
Royal College of Art, London, U.K.

Design for safety projects and latest thinking.

As the RCA, we are running a design for safety grand challenge with 388 postgraduate students. How can we learn lessons from Covid-19 to tackle other future challenges?

Do we have the right skills and design approach? What about healthcare design?

Ashley Hall is Professor of Design Innovation in the school of design at the Royal College of Art. With an MA from the RCA and PhD from the University of Technology in Sydney he has a background in design practice, teaching and research. He joined the Royal College of Art in 2006 teaching and researching in the Innovation Design Engineering program. He now leads postgraduate research for the school of design and the MRes in Healthcare Design with the medical school at Imperial College. Ashley researches in innovation methods ranging from innovation methods and design thinking to design for safety, experimental design, design pedagogy and globalization design to cultural transfer. https://www.researchgate.net/profile/Ashley_Hall8
