## 1 Purpose

The primary purpose of this questionnaire is to listen to feedback from students who have taken the course and provide information that will contribute to the continuous improvement of the course in the following semesters, based on the students' attitude towards learning and how well they achieved their goals in terms of the course objectives. Secondly, by sharing the results with the students, we aim to encourage the students who responded to the questionnaires to reflect on their own learning activities, and to use the results as a reference for other students in subsequent semesters. Thirdly, by widely publicizing the results, we aim to enable FD (faculty development) for faculty members and SD (staff development) among those involved in university administration, including faculty & staff, as well as promote understanding of the university's educational activities among students and faculty & staff\*.

With these purposes in mind, the results of these questionnaires will be made available to faculty members and students, and will be used to guarantee and improve the quality of education at the university.

\* Those in possession of Information System Login IDs (see Q4 on p.20 for details)

## 2 Period

December 18, 2023 (Mon.) - January 31, 2024 (Wed.)

## 3 Process

**Received email from  
CTL office**  
.  
**Information system  
"Notices" disseminated**

**Instructors  
download the  
response request  
form**

Center for Teaching & Learning will send detailed information on how to administer the questionnaire to the instructors' KU Web Mail (UserID@kansai-u.ac.jp). The information will be sent out twice (on the day the questionnaire starts and about 2 weeks before the questionnaire close).

\*The second email will be sent to all instructors, whether it has been conducted or not. The information will also be provided in the information system "Notices".

**P.4**

Download the response request form to be distributed to students from the questionnaire system.

## **We ask for your cooperation in conducting the questionnaire during the class.**

The response rate is very important  
for grasping the actual situation of the class.

### **Distribution to students**

### **Student questionnaire responses (about 5 min)**

### **Check the questionnaire results**

#### **PP.5-6**

- Send the response request form by KU-LMS message function.

OR

- Print out the response request form and distribute it during the class.  
(If there are absent students, please send it by KU-LMS message function.)

During class hours as much as possible, instruct students to scan the QR code (or URL) on the response request form and complete the questionnaire.

#### **PP.7-12**

During the period, instructors can check the results from the "Course Questionnaires" section of the Information System. (The results will be aggregated immediately, at any time.)  
About 2 weeks after the period, when the university-wide aggregation is finalized, instructors can check cross-tabulations and comparisons of course scores.

- In principle, the aggregate results (in PDF format) for each course will be made available within the university through the syllabus system. (p.18)
- The results of the university-wide survey will be publicly available on the website of Center for Teaching & Learning.

### To Course Evaluation Questionnaire System

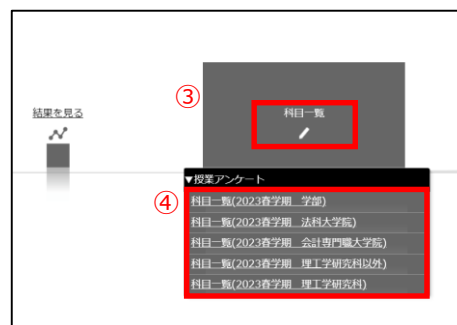

Click ①[the Academic Affairs Information] > ②[Course Evaluation Questionnaire], in the Information System

02

### To Course List

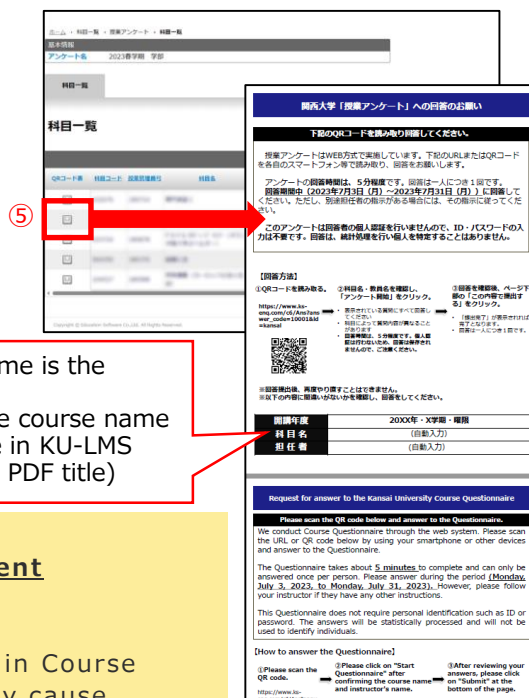

Click ③[Course List] > ④the applicable category (undergraduate or graduate school)

03

### Download the response request form

Select ⑤ a button in the column [QR Code List] to download the response request form (Japanese Ver. and English Ver.)

The last code in the course name is the timetable code.  
Same as the code following the course name  
at the top of each course page in KU-LMS  
(different from the code in the PDF title)

The response request form is **different for each course**.

Using the automatic translation tool in Course Evaluation Questionnaire System may cause download errors.  
Please download the Japanese version of the system as it is.

## 2 Distribute the response request form to the course students

01

### How to send by KU-LMS message function

Send the downloaded response request form to your course students using "KU-LMS" message function.

Kansai University Information & KU-LMS Operation Manual (pp.33-35 of PDF)  
[www.kansai-u.ac.jp/ctl/teacher/pdf/kyouin\\_English\\_2023\\_web.pdf](http://www.kansai-u.ac.jp/ctl/teacher/pdf/kyouin_English_2023_web.pdf)

If the instructor scans the QR code on the response request form and copies and pastes the URL of the answer page to distribute, the answer page will not be displayed to the students. **Attach the PDF data of the response request form.** The students themselves scan the QR code.

Use the following explanation template when informing the course students. You may modify it as needed, but make sure to make it easy for them to respond.

Title : Please complete the Autumn Semester Class Questionnaire.

The purposes of the questionnaire are as follows:

The primary purpose of this questionnaire is to listen to feedback from students who have taken the course and provide information that will contribute to the continuous improvement of the course in the following semesters, based on the students' attitude towards learning and how well they achieved their goals in terms of the course objectives. Secondly, by sharing the results with the students, we aim to encourage the students who responded to the questionnaires to reflect on their own learning activities, and to use the results as a reference for other students in subsequent semesters. Thirdly, by widely publicizing the results, we aim to enable FD (faculty development) for faculty members and SD (staff development) among those involved in university administration, including faculty & staff, as well as promote understanding of the university's educational activities among students and faculty & staff\*.

With these purposes in mind, the results of these questionnaires will be made available to faculty members and students, and will be used to guarantee and improve the quality of education at the university.

\*This questionnaire does not require personal identification such as ID or password. The answers will be statistically processed and will not be used to identify individuals. And it has nothing to do with your grades.

\*It is optional to complete the questionnaire. Even if you don't answer, you will not suffer any disadvantage. If you don't want to answer a question, you can skip it, or/and you can stop halfway.

\*The obtained information will not be used for any purpose other than the above. Please understand the purpose of the questionnaire and give us your honest opinions.

Period: December 18, 2023 (Mon.) - January 31, 2024 (Wed.)

Answer method: Scan the QR code or URL in the attachment, answer from smartphones, PCs etc.

Time required: about 5 min

Q10, 12, 13 If you set instructor's own questions, fill in the following:

- About Q10, please answer the following question. (on a scale of 1 to 5)  
ex. Did you better understand by presenting related books and materials?
- About Q12, please answer the following question. (by free text)  
ex. If there is a theme you would like the instructor to cover in this lecture, please enter it.
- About Q13, please enter your affiliated faculty, year, student ID number, and name.

02

## Distribution on printed paper (If not distribute in KU-LMS)

Please print out the downloaded response request form and distribute it during class. Choose Japanese Ver. or English Ver. according to students.

\*If there are absentees, please send it by KU-LMS message function.

03

## Q10, 12, 13 If you set instructor's own questions [Undergraduate schools]

Instructor's own question Q10(out of 5 ratings), Q12(free entry), or/and Q13(identification) can be set at an instructor's discretion.

If you set:

- When distributing by KU-LMS message function, please indicate the question content as shown at the bottom of a template (01) on p.5.

OR

- When distributing on a paper, please indicate the question content verbally or on a separate document instructor's prepared, by referring to the bottom of a template (01) on p.5.

(See p.15 for the question content.)

The response request form is **different for each course.**

When responding, please instruct students to be sure to check the "year, semester, day of week and time period", "course name", and "instructor name" on the response screen.

Once a response is confirmed, it **cannot be modified or canceled.**

## 1 During the period: Checking the preliminary results [Undergraduate schools]

01

### To Course Evaluation Questionnaire System

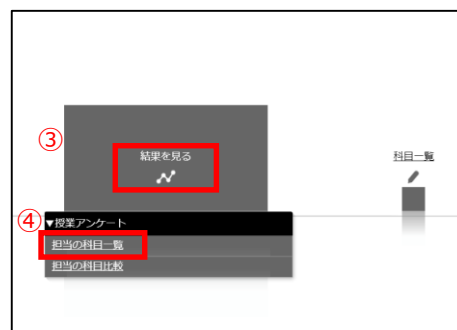

Click ①[the Academic Affairs Information] > ②[Course Evaluation Questionnaire], in the Information System

02

### To Course List

Click ③[View Results] > ④[Course List]

03

### Display of aggregate results

Select ⑤[year, semester, undergraduate or graduate school]. Click ⑥a button in the column [Results (quick report)] from the Course List. The current results will be displayed.

## 2 After the period ends: Viewing the aggregate results [Undergraduate schools]

About 2 weeks after the period, you can view the aggregate results (PDF format).

\*The results will not be displayed during the period.

### 01 From the Information System to Course List

Same as steps 01-02 on p.7

### 02 Display of aggregate results

Select ①[year, semester, undergraduate or graduate school].  
Click ②a button in the column [Results (PDF)].

The questionnaire results will be displayed.

The screenshot shows the 'Kansai University アンケートシステム' (Kansai University Survey System) interface. At the top, there is a navigation bar with links like 'ホーム', '結果を見る', '調査アンケート', and '調査の仕組み'. Below this, a form is used to select the survey period. The '担当の科目一覧' (List of Courses in Charge) is set to '2023春学期 学部' (2023 Spring Semester, Faculty), which is highlighted with a red box and labeled ①. Below the form, there is a table with columns for '科目名' (Course Name), '担当コード' (Instructor Code), '教員名' (Instructor Name), '担当科目' (Assigned Course), '結果' (Results), and '文書' (Documents). A red box and label ② point to a button in the '結果' column. A red arrow points from this button to a larger screenshot of the '2023年度春学期 授業アンケート' (2023 Spring Semester Course Survey) results page. This page displays a list of survey questions and a table of responses, with a red box highlighting the '結果' (Results) column.

- See pp.9-10 for cross-tabulations and comparisons of course scores.
- See p.11 to review the free entry-response [Undergraduate schools] and the results [Graduate schools] .

### 3 Checking the cross-tabulation

[Undergraduate schools]

About 2 weeks after the period, you can cross-tabulate the aggregate results for each course by questions.

\*The results will not be displayed during the period.

#### 01 From the Information System to Course List

Same as steps 01-02 on p.7

#### 02 Select a Subject from the Course List

Select ①[year, semester, undergraduate or graduate school].  
Click ②a button in the column [Cross-tab]

#### 03 Display of cross-tabulation results

③Select a question to cross-tabulate.

④Click [Cross-tab Display].  
The cross-tabulation results will be displayed.

## 4 Comparison of Course Scores

[Undergraduate schools]

You can compare scores across course.

\*The results will not be displayed during the period.

### 01 To Course Evaluation Questionnaire System

Same as step 01 on p.7

### 02 To Comparison of Course Scores

Click ①[View Results] >

②[Comparison of Course Scores]

### 03 Display of Comparison Graphs

③Select courses to compare. (two or more courses can be selected)

Click ④[Make Course Comparison Graph].

The Course Comparison Graph will be displayed.

## 5 Download the questionnaire results data [Undergraduate and graduate schools]

The raw data for questionnaire results can be downloaded. The free entry-response [Undergraduate schools] and the results [Graduate schools] are available in raw data.

\*The raw data will not be downloaded during the period.

### 01 From the Information System to Course List

## 6 Setting the aggregate results to public or private [Undergraduate schools]

About 3 weeks after the response period ends, in principle, the aggregate results (in PDF format) for each course will be made available within the university through the syllabus system .  
If you wish to make the results private, make sure to change the setting by **February 16 (Fri.)**.

\*When "Public" is set, persons with information system login IDs will be able to view them. (see Q4 on p.20)

\*When "Private" is set, only the instructor can view the results.  
The course students, students outside the course, and other faculty & staff will not be able to view them.

The syllabus for each course will be displayed.  
Click on ⑧the URL, [Refer to the results] at the bottom of the syllabus.  
The result(PDF) will be displayed.

### **Q1 How are the questionnaires related to the three policies and the syllabus?**

A: The university's three overarching policies (Diploma Policy, Curriculum Policy, and Admission Policy) are disclosed on the university website. They aim to develop the "Ability to Think and Act" based on the founding motto and the University motto. In addition, each of the 13 Faculties has its own three policies based on the overall university policies, which are also available on the website.

In the syllabus, the relationships (correspondence) between individual courses are clearly indicated based on each faculty's diploma policy. The purpose of the syllabus is to make the academic skills and abilities to be cultivated through the undergraduate program (curriculum) visible by organizing the relationships between the courses taught.

In this context, course questionnaires enable us to confirm, from a bottom-up perspective, whether each course is making an appropriate contribution to the fulfillment of the Diploma Policy by examining the degree to which the course objectives are achieved.

### **Q2 How can I make use of the instructor's original questions? [Undergraduate school only]**

A: Instructors can set their original questions to the students.

Use Q10(on a scale of 1 to 5) and Q12(by free text). (p.15)

There are many ways to use these questions. For example, the question can be used to verify the effectiveness of the use of teaching assistants (TA) or learning assistants (LA), or to check whether offering related books and materials enhanced students' comprehension.

Center for Teaching & Learning provides support on how to use the questions, so feel free to ask for assistance.

### **Q3 Will the students' anonymity be protected?**

A: Yes.

Students do not need to enter any personal information when responding. In addition, the system is designed such that respondents cannot be identified.

\*Only if instructors set Q13, individuals are identified. (p.15)

#### **Q4 What is the scope of disclosure of the questionnaire results?**

A: The scope of disclosure is as follows,

①Aggregate results for each course [Undergraduate school]

About 3 weeks after the response period ends, in principle, the aggregate results (in PDF format) for each course will be made available within the university to persons with information system login IDs through the syllabus system. (p.18)

If you choose "Private" (only the instructor views), please set it as "Private". (p.12)

Free text responses are not included in the public release, and are to be viewed only by the instructor. (p.11)

\*"Those with an Information System Login ID" refers to students/faculty members (full-time, part-time, visiting professors, researchers, professors emeritus/emerita), and staff (full-time and part-time). In addition to the above, officers (the Chairperson of the Board of Trustees, trustees, auditors, councillors, and executive advisors) also have IDs, and the results are widely disclosed for the purpose of SD for those involved in university management.

②University-wide aggregate results [Undergraduate school]

About 3 weeks after the response period ends, the university-wide aggregate results of the undergraduate school questionnaire will be publicly available on the website of Center for Teaching & Learning.

<https://www.kansai-u.ac.jp/ctl/support/questionary/>

③Questionnaire results [Graduate school]

The results of the graduate school questionnaire will be disclosed only to instructors and will not be made public.

#### **Q5 Are the results of the questionnaire used to evaluate instructors' performance?**

A: No.

We have established guidelines for the use of the questionnaire results. The guidelines clearly state that "the questionnaire results are not to be used for evaluation of individual instructors", so that these are not to be used for performance reviews.

## **Q6 How should I administer the questionnaire for an omnibus course?**

A: For an omnibus course, follow the instructions of the grader.

In an omnibus course, all instructors can operate the Course Evaluation Questionnaire System, but follow the instructions of the grader and make adjustments as necessary to inform students.

Students' response results can also be viewed by all instructors.

## **Q7 Can students modify their answers?**

A: No.

When students clicks "Submit", responses are finalized. Once responses are confirmed, instructors and students cannot modify them.

Therefore, instruct students to be sure to check the "year, semester, day of week and time period", "course name", and "instructor name" before responding, and explain that they cannot modify their responses.

In addition, when a instructor mistakenly distributes a response request form for a different class, the responses cannot be modified or canceled.

## **Q8 Is it necessary to conduct the questionnaire in class?**

A: Please conduct the questionnaire in class.

Conducting the questionnaire in class is desirable in order for students to assess themselves as accurately as possible regarding their own learning outcomes.

It is also possible to avoid non-course student responses by conducting the questionnaire during class.

In addition, there is a concern that some students may forget to respond outside of class time.

For these reasons, it is desirable to conduct the questionnaire in class. But instructors can be flexible in conduct of the questionnaire according to the progress of the class.

### **Q9 Should students access the response form through KU-Wifi?**

A: Students do not necessarily need to access through KU-Wifi.

They can also respond through their mobile carriers (docomo, au, Soft Bank etc.). Note that depending on their mobile plan, they may be charged for the mobile connection. There is no need to stop them to use mobile connections if they choose, but do not instruct them to do so when responding.

### **Q10 How should I handle students who do not have smartphones?**

A: Please instruct students to respond from a device other than a smartphone.

Instruct them to respond from a classroom PC or their own PC during the period. If they need a QR code, please give them a response request form (to take home). If they have a device that can scan QR codes in class, such as a smartphone, laptop, or tablet, instruct them to bring it to class if they can, by the week before the questionnaire is administered. It makes the questionnaire go smoothly.

### **Q11 Instructor names, course names, etc. displayed in the course evaluation questionnaire system are incorrectly converted.**

A: When using the Course Evaluation Questionnaire system, use the following recommended environments.

#### **■ Windows (PC)**

Microsoft Edge, Google Chrome, Mozilla Firefox

#### **■ Mac (PC)**

Safari
