# Privacy Policy

With regards to personal information received on application which is liable to specify the individual (hereafter “Personal Information”), Kansai University Graduate School (hereafter “the Graduate School”) will treat the information carefully in accordance with applicable laws and the Kansai University Graduate School Privacy Policy.

The Kansai University Graduate School Privacy Policy can be found on the top page of the Graduate School’s website ([www.kansai-u.ac.jp](http://www.kansai-u.ac.jp)) under “Privacy Policy.”

## 1. Use of Personal Information

Personal Information from applicants is used only for the following purposes:

- (1) To administrate entrance examinations (to receive applications, to deliver examination admission slip, and to operate entrance examinations)
- (2) To announce examination results
- (3) To complete procedures up to enrollment

## 2. Management of Personal Information

The Graduate School has assigned a personal information protection administrator to ensure that Personal Information from applicants for the three purposes listed above is managed carefully and deleted appropriately in accordance with applicable laws and ordinances after a fixed period of custody.

## 3. Sharing of Personal Information

The Graduate School will share some Personal Information with Kansai University Kyosaikai (an affiliated organ of Kansai University for mutual-aid program) to enhance student life on campus.

《Sharing of Personal Information and its purpose》

Administrative numbers, names, address, phone number, dates of birth, assigned graduate school, major, and course for verifying the payment of the enrollment and registration fees to the above affiliated organ.

## 4. Disclosure of Personal Information to Third Parties

The Graduate School will not share Personal Information with third parties without consent of the applicant, except when compelled by laws and ordinances.

## 5. Sharing of Personal Information with Contractors

The Graduate School may share some Personal Information with contractors in order to carry out the operations described in 1 above. In such cases it shall contract them to handle the Personal Information appropriately based on its Privacy Policy.

## 6. Statistical Data on Entrance Examinations

The Graduate School compiles statistical data about entrance examinations but does not identify applicants. This data will be used for individuals interested in the Graduate School, and utilized to analyze the Graduate School’s future entrance examinations.

## 7. Disclosure, Correction, and Deletion of the Personal Information

When requested by an applicant to disclose, correct, or delete his or her Personal Information, the Graduate School will accommodate that request promptly in accordance with applicable laws, rules, and other guidelines after verifying the applicant. Data pertaining entrance examination score will not be disclosed.

## 8. Inquiries

Inquiries concerning applicants’ Personal Information, including requests to disclose, correct, or delete it, will be directed to Graduate School Admissions Division of Kansai University Entrance Examination Center.

# **Graduate School of Science and Engineering Special Entrance Examination for Recommended International Students for Spring Semester 2021 Admission**

## **1. Purpose of the Graduate School of Science and Engineering Special Entrance Examination for Recommended International Students**

To open the doors to students from overseas, the Kansai University Graduate School of Science and Engineering offers a special entrance examination for students of its overseas partner universities. Refer to the following overview of the Graduate School when applying for admission.

## **2. Overview of the Graduate School of Science and Engineering**

### **(1) About Kansai University and the Graduate School of Science and Engineering**

Kansai University is more than 130 years old since the Kansai Law School, its predecessor, was founded. Its history as a university began in 1922, and as of 2020, the institution becomes one of the leading universities in the west of Japan with more than 30,000 undergraduate and graduate students studying in 13 faculties, 13 graduate schools, and 2 professional graduate schools.

The Faculty of Engineering was established in 1958, and the Graduate School of Engineering opened 4 years later. The Graduate School has trained numerous engineers and researchers, and its graduates are active in a broad range of fields in Japan and overseas countries. In 2007, the Faculty of Engineering was reorganized into the Faculty of Engineering Science, the Faculty of Environmental and Urban Engineering, and the Faculty of Chemistry, Materials and Bioengineering. As a result the Graduate School of Engineering became the Graduate School of Science and Engineering in 2009.

The Graduate School of Science and Engineering is dedicated through its educational programs to training researchers and engineers to implement its philosophy of 'Praxis Learning' by way of science and technology. It welcomes applicants who possess not only the necessary level of basic academic skills, but also the wish to master research skills in a field of specialization through serious study and to contribute to society and humankind through the development of natural science and technology.

### **(2) Organization of the Graduate School of Science and Engineering**

The Graduate School of Science and Engineering's Master's Degree Program offers 9 disciplines including 4 under Engineering Science Major (Mathematics, Pure and Applied Physics, Mechanical Engineering, and Electrical, Electronic and Information Engineering), 3 under Environmental and Urban Engineering Major (Architecture, Civil, Environmental and Applied Systems Engineering, and Chemical, Energy and Environmental Engineering), and 2 under Chemistry, Materials and Bioengineering Major (Chemistry and Materials Engineering, and Life Science and Biotechnology) in order to endow graduates with specialized knowledge and technological skills. In addition, the Graduate School's Ph.D. Degree Program consists of the same 9 disciplines under Integrated Science and Engineering Major. The program is designed to endow graduates with exceptional research skills as well as broad knowledge and technological skills that enable them to integrate various research domains.

### **(3) The Graduate School of Science and Engineering's Educational System and Requirements for Program Completion**

Students who have been admitted to one of the discipline of Master's Degree Program by the Special Entrance Examination for Recommended International Students from overseas partner universities will take an educational program known as the International Master Course. This program is characterized that lectures are offered in English and students can earn their degree through research guidance in English. In addition to specialized subjects in each field, available lecture subjects include courses to master knowledge about Japanese history and culture. Concerning research, students take required seminar subjects by their advisors and receive research guidance to help them draft their master's thesis.

Students who have been admitted to Ph.D. Degree Program will study only seminar subjects by their advisors, dedicating rest of their time to activities for the drafting of their doctoral thesis.

In the Graduate School of Science and Engineering, each student drafts his or her master's thesis or doctoral thesis under the guidance of 1 principal advisor and 2 assistant advisors. While students of Master's Degree Program are required to spend their time for attending, preparing for and reviewing the lectures content, in order to take the program's lecture subjects, they spend the rest for activities necessary for the drafting of their master's thesis, such as personal study, experimentation, and discussion, primarily under the guidance of their principal advisor. Students of Ph.D. Degree Program spend most of their time for research to draft their doctoral thesis under the guidance of their principal advisor. Since education and research guidance offered by the principal advisor comprises an extremely dense experience, applicants to the Graduate School of Science and Engineering need to clarify not only a desired discipline, but also a principal advisor.

To complete Master's Degree Program, students must as a rule be enrolled for 2 years (4 semesters), during which time they must earn at least 30 credits of subjects (including 8 credits of seminar subjects) and submit their master's thesis. An additional objective is to increase the quality of research in their master's thesis and present their findings to academic societies or submit them to academic journals during the period of their enrollment.

To earn their degree from Ph.D. Degree Program, students must earn 8 credits of seminar subjects and submit their doctoral thesis. In addition, one of the requirements for submitting their doctoral thesis is to publish it on an academic journal. The standard period of enrollment is 3 years (6 semesters), although that period may be shortened.

## **3. Admission Policy**

### **Master's Degree Program**

The Graduate School of Science and Engineering (Master's Degree Program) widely accepts through a variety of entrance examinations those who have the following knowledge and skills, abilities of thinking, judgement, and expression, and proactive attitudes as the graduate school students according to the Diploma Policy and Curriculum Policy of the Graduate School:

1. To have the expertise of their specialized fields on the foundation of the basic academic abilities of science and engineering in the undergraduate courses.
2. To be able to think autonomously from a global perspective, to smoothly communicate with others, and to contribute to society with their capabilities of "Think and Act" on the foundation of their learning results at the undergraduate courses.
3. To have strong willingness to study proactively their specialized academic fields.

### **Ph.D. Degree Program**

The Graduate School of Science and Engineering (Ph.D. Degree Program) widely accepts through a variety of entrance examinations those who have the following knowledge and skills, abilities of thinking, judgement, and expression, and proactive attitudes as the graduate school students according to the Diploma Policy and the Curriculum Policy of the Graduate School:

1. To have the expertise of their specialized fields during their undergraduate courses and master's degree programs.
2. To be able to think autonomously from a global perspective, to smoothly communicate with others, and to contribute to society with their capabilities of "Think and Act" based on results of learning during their undergraduate courses and master's degree programs.
3. To have strong willingness to study proactively their specialized academic fields.

## 9. Precautions Concerning Applying

- (1) Once you have applied, you may not change your major, discipline, or research discipline.
- (2) Your desired advisor may be changed. Notification of any such changes will be made beforehand to the university from which you have graduated or are expected to graduate, so be sure to check before you apply.
- (3) Fill your desired major, discipline, and research field in the designated spaces on the application documents.
- (4) Enter your desired major, discipline, and research field in the designated spaces on the application documents after referring to the “List of Academic Advisors of Graduate School of Science and Engineering for 2021 Academic Year” (pages 15 to 52).
- (5) The application documents must be completed using either black ink or a ballpoint pen. The University’s designated forms must be completed by hand. If using a computer or typewriter, you must print directly on the designated forms.
- (6) If the name on the certificate differs from the name under which you are applying, submit a separate official certificate or other document that establishes your identity.
- (7) Certificates must be in English. If you are submitting one or more certificates in another language, you must also submit a English translation that has been certified by an embassy or other public institution.
- (8) Once received, documents will not be returned.
- (9) The Graduate School will make special arrangements in the learning environment after enrollment for individuals with special needs such as physical disability, injury, illness, or other circumstances. Please contact the Graduate School Admissions Division before you apply.
- (10) Applicants who have passed this entrance examination may not withdraw from enrollment unless they have any legitimate reasons.

## 10. Screening Method

The Graduate School will make screening based on application documents, considering recommendations from the designated partner universities.

## 11. Announcement of the Screening Results

Your results of success or failure will be sent to the applicant by International Express Service (DHL) on the following date:

Friday, February 26, 2021

## 12. School Fees and Other Fees

Refer to “School Fees and Other Fees for 2021 Academic Year” (page 9) below.

## 13. Enrollment Steps

Successful applicants must complete the following enrollment process by the designated deadline.

You will not be able to enroll if you fail to complete the process by the deadline.

\* Please complete the payment as soon as possible since it takes days to deposit into the bank account.

### (1) Enrollment Step I-(1) (Payment of Admission Fee <Enrollment and Registration Fees>)

Be sure to remit payment no later than the day before the enrollment deadline as described in the information about the payment method that is enclosed with the notification of admission.

Please note that the admission fee is non-refundable.

**Ⓐ Scholarship for Privately-funded International Students (For Freshman)** **Award type**

※ Notification-based (Graduate School of Economics and Graduate School of Business and Commerce are Application-based)  
(The university will notify the adoption of the scholarship to the eligible students before enrolling.)

**Eligibility**

■ Graduate School Students who will enroll in Kansai University in 2021 academic year with excellent grades and are in difficulty to continue to study for financial reasons. (International students who obtain the resident status of "Student").

※ For Master's Degree Program, at the Graduate School of Economics and the Graduate School of Business and Commerce, there are additional requirements regarding linguistic ability.

And at the Graduate School of Sociology, Examination for Japanese University Admission for International Students (EJU) should be submitted for certificate of Japanese language ability is necessary as application document.

※ For Ph.D. Degree Program, all enrollees will receive the scholarship generally.

**Awards Amount**

■ See the figure below

**Duration of Award**

■ For one year

※ For Ph.D. Degree Program, enrollees will continue to be awarded one year later generally.

Ⓐ The academic results criteria, the number of students to be granted and the amount of the Scholarship for Privately-funded International Students are different from graduate schools. For details, please check the Website of the Division of International Affairs at:  
[www.kansai-u.ac.jp/Kokusai/from/support.php](http://www.kansai-u.ac.jp/Kokusai/from/support.php)

**Ⓑ Scholarship for Privately-funded International Students (For 2<sup>nd</sup> year students and above)** **Award type**

※ Application-based

**Eligibility**

■ Graduate School Students who are in the second year and above with excellent grades and are in difficulty to continue to study for financial reasons. (International students who obtain the resident status of "Student").

※ For Ph.D. Degree Program, all enrollees will receive the scholarship generally.

**Awards Amount**

■ See the figure below

**Duration of Award**

■ For Master's Degree Program: for one year

■ For Ph.D. Degree Program: continue to the end of usual study term (application is necessary per year)

**Awards Amount**

Ⓐ and Ⓑ Common to Privately-funded International Students Scholarships

Degree Program	Graduate School	Yearly Awards Amount (yen)
Master's Degree Program	All of the Graduate Schools	different from graduate schools※
Ph.D. Degree Program	Law, Letters, Economics, Business and Commerce, Sociology, Foreign Language Education and Research, Psychology, East Asian Cultures, Governance, Health and Well-being	350,000
	Informatics, Science and Engineering, Societal Safety Sciences	400,000

※ For details such as the amount of the scholarships, the academic results criteria and so on, please check the Website of the Division of International Affairs.

In addition, the Division of International Affairs deals with variety of scholarships which are only for privately-funded international students, such as the scholarships provided by external foundations. For complete information, please check the Website of the Division of International Affairs at:

# Getting to Kansai University

- Hankyu Railway: Take the train from Osaka-umeda station bound for Kita-Senri. Pass Juso, Minamikata and Awaji stations and get off at Kandai-mae station (about 20 mins.). Or, take the train from Osaka-umeda bound for Kyoto Kawaramachi ("Kaisoku Tokkyu" Limited Express, Tokkyu" Limited Express, "Kaisoku Kyuko" Rapid Express, "Kaisoku" Rapid Service, "Junkyu" Semi-Express or "Futsu" Local) and get off at Awaji station. At Awaji station, transfer to the line bound for Kita-senri and get off at Kandai-mae station (about 15 mins.). In either case, it is a 5-minute walk from the station. Note that the "Tsukin Tokkyu" Limited Express does not stop at Awaji station.
- Osaka Metro Sakaisuji Line (through services with the Hankyu Senri Line): Take the Osaka Metro from Tengachaya station bound for Kita-Senri. Pass Nippombashi, Kitahama, Tenjimbashisujii 6-chome (Tenroku) and Awaji stations and get off at Kandai-mae station (about 40-45 mins.). Walk about 5 mins.
- JR Shinkansen: Take the train from Shin-Osaka station bound for Nakamozu on the Subway Midosuji Line and get off at Nishinakajima-Minamigata station. Transfer at the Hankyu Railway Minamikata station to the train bound for Kita-senri. Pass Awaji station and get off at Kandai-mae station (about 30 mins.). Walk about 5 mins.
- From Osaka International Airport (Itami Airport): From Osaka Airport station, take the Osaka Monorail bound for Kadoma-shi. Pass Hotarugaike and Senri-chuo stations and get off at Yamada station. Transfer at the Hankyu Railway Yamada station to the train bound for Tengachaya or Umeda and get off at Kandai-mae station (about 30 mins.). It is a 5-minute walk from the station.

(Note) When asking directions for taking an entrance examination at the Kansai University Senriyama Campus or giving your destination to a taxi driver, clearly state that you are going to "Senriyama no Kansai Daigaku." Kansai University has multiple campuses (Senriyama, Takatsuki, Takatsuki Muse and Sakai). Also, a simple "Kandai" may be mistaken for "Handai" -the shortened name for Osaka University in Suita and the neighboring Toyonaka. Arriving at the wrong location may prevent you from taking the examination.

List of Academic Advisors of Graduate School of Science and Engineering  
for 2021 Academic Year

Mathematics .....	16~17
Pure and Applied Physics .....	18~19
Mechanical Engineering .....	20~25
Electrical, Electronic and Information Engineering .....	26~30
Architecture .....	31~33
Civil, Environmental and Applied Systems Engineering .....	34~38
Chemical, Energy and Environmental Engineering.....	39~41
Chemistry and Materials Engineering .....	42~49
