### How to search and contact Professors

Kansai University Graduate School Administrators will not search for a professor within their department whose current work closely matches your research or transfer your email to the professor. Please contact the professor whom you would like to have as your academic supervisor. You need to contact potential professors by sending emails or letters directly to them before the admission process starts. (Eligible graduate schools are all graduate schools for the Entrance Examination for International Research Students, and the Graduate School of Sociology, Informatics, Science and Engineering, Psychology (Psychology Major), and Health and Well-being for the Entrance Examination for International Students.) For example, the information (Digital Brochure) available on the "Kansai University Graduate School Entrance Examination Information Website" lists the research themes of each faculty member. In addition, you can search researchers by their affiliation, specialized field, or keywords on Kansai University System for Academic Information. For more details, please confirm "How to search and contact Professors" on the "Kansai University Graduate School Entrance Examination Information Website."

STEPS: FROM APPLICATION TO SELECTION EXAMINATION

Concurrent Application for Admissions as a Regular International Student and as a Foreign Research Student

You can apply for admissions as a regular international student (in the Master's Degree Program) and simultaneously as an international research student. The oral examination for screening of applicants who apply for both admissions will be conducted simultaneously. The application documents for the "International Students Entrance Examination" and "Foreign Research Students Selection Examination" are different. Please make sure of both application requirements and prepare for your examination.

Application documents for concurrent application

Foreign Research Students Selection Examination	International Students Entrance Examination (Master's Degree Program)

Certificate of Proficiency in Japanese required by the graduate school	
Copy of Residence Card/Passport	
Motivation letter for Selection of foreign researchers (prescribed form)	Motivation letter (prescribed form)
Letter of Recommendation*	—

\*Refer to the Application Guidelines for a list of graduate schools that require a letter of recommendation.

### Pre-qualification Individual Screening

Based on the application documents, Kansai University will examine the applicant's academic background to determine whether it is equivalent to a Japanese university education program. In some application months, the deadline for pre-qualification individual screening for admission is set about one month earlier than the application period. First, please confirm the application eligibility of the graduate school to which you wish to apply. If you cannot determine your eligibility for application, please contact us immediately via the "pre-qualification individual screening" link on the "Kansai University Graduate School Examination Information Website.

[Examples whether a pre-qualification individual screening is required]

- Graduates of a junior college or three-year university
- Graduates of Five-year primary school (15 years to university graduation)

# Japanese Language and Culture Program Preparatory Course (*Bekka*)

<https://www.kansai-u.ac.jp/ku-jpn/English/>

As a part of an international initiative, Kansai University opened Kansai University Minami-Senri International Plaza in April 2012. This new Plaza offers the Japanese Language and Culture Program Preparatory Course (*Bekka*). The purpose of this course is to provide instruction in Japanese Language, Japan Studies, and Japanese culture to international students who intend to proceed to the next stage of education as a student at Kansai University or other Japanese universities after passing the entrance examination. This course is a one year-program (\*) in principle.

\*The study period can be extended up to two years at maximum with permission from the Center for International Education.

## Subjects

### First Group: Japanese Language Class (18 subjects • 2 credits each)

These classes are designed to acquire the four basic language skills (reading, writing, listening, and speaking) by the student's level of Japanese proficiency.

Japanese Language Class

### Third Group: Japan Studies Fourth Group: Japanese and the World (3 subjects • 4 credits each)

Japan Studies in the third group is designed to understand basic knowledge required in everyday life in Japan through lectures and other activities. Japanese and the World in the fourth group conducts in-depth studies on Japanese politics, society, economics, geography, and history. This class also provides preparation for the "Japanese and the World" topic in the Examination for Japanese University Admission for International Students (EJU).

Japan Studies(Japanese Archery Experience)

### Second Group: Special Lectures or Seminar (9 subjects • 4 credits each)

The Second Group is designed to develop knowledge about technical terms and academic skills. Students will work on writing coherent reports and delivering oral presentations utilizing appropriate academic expressions.

### Fifth Group: General Subject (8 subjects • 2 credits each)

This class is designed to enhance academic ability such as English, mathematics and science to excel at undergraduate or graduate school level.

## Timetable (2021) (for reference)

Below is the timetable of the course. Along with the subjects highlighted in blue, the students are able to choose and enroll in classes highlighted in orange that meet their academic needs.

Duration	1 year (Recipients may apply again.)
Amount	Depends on each year and faculty/graduate school.

### Scholarships from outside sources (awarded based on the recommendation of the University)

These scholarships are awarded by outside foundations to privately financed international students who are recommended by the University. The University ranks students who wish to apply according to their academic performance and recommends top-ranking applicants who fulfill each scholarship's recommendation requirements.

### Scholarships from outside sources (awarded based on an open application process)

Outside foundations award these scholarships to students who have applied on their own. The University can provide information about some, while other students must research on their own.

For more information about scholarships for international students, including award amounts and academic performance standards, see the website (<https://www.kansai-u.ac.jp/Kokusai/english/from/support.php?id=scholarship>) of the Division of International Affairs.

Other scholarships accept applications from all students enrolled at Kansai University. For more information, see the Scholarships and Financial Assistance Group's website (<https://www.kansai-u.ac.jp/scholarship/system.html>).

## A great variety of dormitory rooms for international students

We have various accommodation environments, including the unit type where six to seven people share common spaces such as the kitchen and lounge, the shared type with a Japanese student, and a single room type. ## Career Support

### Kansai University as a whole strongly supports job hunting activities of international students in Japan.

Many international students wish to find a job in Japan after graduation or academic completion. Japanese companies also want to employ international students who can play an active part globally. However, to find employment in Japan, international students must understand the selection methods and recruitment schedule specific to Japan for carrying out job hunting efficiently. To that end, Kansai University offers a variety of support.

### Center for Career Development Program

#### Events for International Students

Many events specialized for international students are available. International students are encouraged to participate in various events, including conducting job hunting activities in Japan, writing application documents, participating in internships at Japanese companies, joint company briefing sessions for international students, etc. Among these events, international students can make a satisfying career choice.

#### Individual consultation at Career Center

International students will be able to consult individually about their concerns or troubles in job hunting activities at the Career Center.

### SUCCESS-Osaka Program (a project commissioned by the Ministry of Education, Culture, Sports, Science and Technology [MEXT] from October 2017 through March 2022) supports international students' job seeking in Japan!

This program works with local governments such as Osaka Prefecture and numerous private-sector companies. It helps international students at Kansai University find jobs with Japanese businesses and follow that up with employment support designed to help them continue working as highly skilled global human resources.

The program has the following characteristics in job-seeking support activities:

- Education in business Japanese that students will need in Japan
- Career Design courses designed to teach international students about topics such as Japan's corporate culture, business practices, and manners, how to find a job, and how to research companies and industries
- International student internships that have been developed jointly with private-sector companies
- Exchanges with employees of Japanese companies through seminars and workshops made possible by SUCCESS-Osaka's network of corporate partners

This program has been implemented in cooperation with many leading companies, local governments, including Osaka Prefecture and major peripheral universities.

For more information, see SUCCESS-Osaka's website (<https://www.kansai-u.ac.jp/Kokusai/SUCCESS-Osaka/en/>).

# International Students's Message

Third-year (Ph.D. Degree Program) student in the Graduate School of East Asian Cultures

Liu Yang (劉陽)  
Country/region: China

I research Japanese translations of Chinese literature at the Graduate School of East Asian Cultures. The course that I find most interesting is "Introduction to Cultural Negotiation Studies." The class uses a relay approach that brings us a new professor every week so that all of the professors in the Graduate School of East Asian Cultures have an opportunity to teach for over a year. The course has offered a precious experience through exposure to the latest research findings in cultural negotiation studies.

Kansai University has an extensive range of exchanges with universities in other countries. The Graduate School of East Asian Cultures I belong to host universities in countries like China, South Korea, Italy, and Germany every year. Last year, those presentations were held online due to the COVID-19 pandemic. These joint presentations allow me to encounter knowledge from research fields other than my own and take a new look at my research from a different angle.

Since my future goal is to become a Japanese instructor, I also take courses designed to train Japanese instructors, apart from my research. I'm working on mastering as much knowledge in the area of Japanese education as possible.

Kansai University also offers extensive support for international students. The Division of International Affairs plays the lead role in providing services for international students, and its staff members are always happy to offer thoughtful advice.

When I applied for the Rotary Yoneyama Memorial Foundation, the division's staff offered me painstaking support and guidance over the six months between the screening of my application documents and my interview with the foundation that sponsors the scholarship. They even staged a mock interview as part of the preparation process. As a result, I'm receiving financial support from the Rotary Yoneyama Memorial Foundation recipient.

Kansai University also has a library whose collection ranks on par with those of Japan's leading institutions. Its campus offers beauty that rivals the best sightseeing destinations when cherry blossoms are in full bloom in spring. I would encourage any international students interested in attending Kansai University to make that dream come true to enjoy rich student life.

Fourth-year student in the Department of Informatics, Faculty of Informatics

Bui Cuong THINH  
Country/region: Vietnam

For me, the learning environment was the most important consideration when I was deciding where to study. Kansai University has one of the Kansai region's biggest libraries and an extensive range of equipment to aid in study and research, making for a perfect learning environment. The university's excellent name recognition was another aspect of its appeal.

The Faculty of Informatics, where I belong, offers a broad range of courses covering social information systems, media system information, and computing systems. Of the courses I've taken, the most interesting has been Venture Business Theory. The class allowed me to study basic venture business know-how while gradually developing an understanding of such businesses' practical thinking and techniques. As a result of three years of complex work learning in the faculty, I have been receiving a scholarship from the Rotary Yoneyama Memorial Foundation since April 2021.

The Faculty of Informatics is located on the Takatsuki Campus, one of Kansai University's four campuses. The Takatsuki campus has only the Faculty of Informatics and the Graduate School of Informatics, so the number of international students is small. However, there are some advantages to having a small number of students. The international students all know one another. They deepen exchanges by eating meals together on campus and preparing traditional dishes from their countries at their dorms or boardinghouses during their free time.

My future dream is to create a company that will provide IT professionals who will bridge IT companies in Vietnam and Japan. Vietnam has been pouring resources into training talented IT professionals in recent years. However, many university graduates are forced to take jobs in other fields because they cannot find IT-related work. By contrast, Japan has been experiencing a sustained shortage of IT workers, driving up associated labor costs. Both problems could be solved if there were a way to introduce Vietnamese IT engineers to countries like Japan that don't have enough IT professionals. To realize this dream, I'm augmenting my study of specialized IT knowledge and venture business theory in the Faculty of Informatics by participating in lectures related to startups and business operations and studying foreign languages independently.

Kansai University offers an excellent environment and support structures to help students achieve their dreams. I would encourage you to chase your dreams and enjoy a fulfilling life as a Kansai university student to have a bright future.
