

KANSAI

UNIVERSITY

GUIDE BOOK 2026

FOR INTERNATIONAL STUDENTS

KANSAI UNIVERSITY

Undergraduate Faculties

14 faculties facing modern topics with ‘THINK × ACT’ philosophy for the betterment of society

<https://www.kansai-u.ac.jp/english/academics/>

Faculty of Law

■ Department of Law and Politics

- A curriculum designed to help students understand social frameworks, centering on the dual pillars of law and political science
- Six specialized course groups that allow students to study systematically according to their interests and career goals
- A strong emphasis on small-group education that fosters active learning through discussions and presentations

Faculty of Letters

■ General Department of Humanities

Department of English Linguistics and Literature / American and British Cultural Studies / Japanese Language and Literature / Philosophy / European Cultures / Japanese History / World History and Geography / Education and Culture / Elementary Education / Psychology / Cultural Symbiotics / Asian Culture Studies

- “Single-department, multiple-specialization system” that allows students to take courses across different majors, even after declaring their area of specialization
- A diverse faculty and curriculum offering instruction in the faculty's associated languages as well as a broad array of other languages and cultures
- Opportunities to earn licenses and certifications aligned with students' career goals, including teaching credentials, curator qualifications, and librarian certifications

Faculty of Economics

■ Department of Economics

Economic Policy / Economic Thought and History / Industry and Business / International Economy

- Students can build a solid foundation in economics while advancing smoothly toward applied study and developing a high level of expertise.
- The program supports independent learning through intensive small-group education that encourages exploration of individual interests.
- It also fosters global and local perspectives through short-term study abroad programs and incorporates collaborative activities with local governments and other organizations.

Faculty of Business and Commerce

■ Department of Business and Commerce

Distribution and Marketing / Finance / International Business / Management / Accounting

- Five specialized programs designed to help students understand their future career paths and suitability for various industries
- Practical programs that develop real-world business skills and strong self-confidence
- Cross-disciplinary, integrated projects that combine science and the humanities while fostering the creation of new models beyond traditional academic boundaries

Faculty of Sociology

■ Department of Sociology

Sociology Major / Psychology Major / Media Studies Major / Social System Design Major

- Four majors that serve as pillars for understanding the complexities of modern society (including the ability to take courses from other majors)
- Twelve programs offering systematic and in-depth study tailored to future goals and areas of interest
- A diverse range of learning opportunities supported by the largest number of faculty members of any sociology faculty in Japan, helping students cultivate the skills needed in society

Faculty of Policy Studies

■ Department of Policy Studies

Politics and Economics / Local Community and Management

■ Department of Global and Asian Policy Studies

- A curriculum built around small-group instruction, with seminars emphasizing practical educational experiences like off-campus fieldwork
- An International Education Program unique to the department that helps students develop foreign language skills and overseas training programs
- A Public Policy Seminar for students aiming for careers in public service, starting from their first year

Faculty of Foreign Language Studies

■ Department of Foreign Language Studies

- A Study Abroad Program that requires all students to complete one year of overseas study
- Five specialized programs that build on cross-cultural experiences and foreign language skills acquired during study abroad to deepen expertise
- Thorough small-group instruction, ranging from detailed support starting during the first year to study abroad preparation and career support

Faculty of Health and Well-being

■ Department of Health and Well-being

Sport and Wellness Course / Social Work and Well-being Course

- Learning structured to promote well-being in mind, body, and lifestyle
- Emphasis on a practical education that fosters a culture of supporting and engaging with others through collaboration with the local community
- Programs targeting a wide range of qualifications

Faculty of Informatics

■ Department of Informatics

- Learning about the future of information from multiple perspectives through three academic streams: media information, social information systems, and computing
- Gaining practical knowledge of society's informatization through a variety of hands-on courses such as video content production, data analysis, and programming
- Systematic study of data science and AI through the Data Science Education Program

Faculty of Societal Safety Sciences

■ Department of Safety Management

- A curriculum designed to develop practical skills through role-playing exercises based on large-scale natural disaster scenarios
- Cultivating the ability to identify and solve problems by drawing from a broad range of disciplines in the humanities, social sciences, and natural sciences
- Enhancing English communication skills through a practical curriculum that envisions international collaboration in addressing safety issues

Faculty of Business Data Science

■ Department of Business Data Science

- Developing the ability to identify and solve problems through active learning that integrates business and data science
- Offering practical education connected to the real world by utilizing actual data through collaborations with companies
- A practice-oriented faculty that includes professionals active at the forefront of business in IT and other industries

Faculty of Engineering Science

■ Department of Mathematics

■ Department of Pure and Applied Physics

Physics Course / Applied Physics Course

■ Department of Mechanical Engineering

Electrical and Electronic Engineering Course / Information and Communication Engineering Course / Applied Information Engineering Course

■ Department of Green Electronics (under development; official name to be determined)

- Studying the principles of systems (science) and the ability to apply them (engineering)
- Approaching cutting-edge technological research in fields such as AI, IoT, and self-driving
- Developing the ability to succeed globally through opportunities such as overseas training programs and participation in international joint research

Faculty of Environmental and Urban Engineering

■ Department of Architecture

■ Department of Civil, Environmental and Applied Systems Engineering

Urban Infrastructure Design Course / Social Systems Planning Course

■ Department of Chemical, Energy and Environmental Engineering

- Learning to create, regenerate, and maintain vibrant urban spaces through research directly connected to societal needs
- Pursuing environmentally harmonious city planning by tackling environmental issues
- Training engineers to integrate science and technology in fields such as environment and information to create the sustainable cities of the future

Faculty of Chemistry, Materials and Bioengineering

■ Department of Chemistry and Materials Engineering

Materials Science and Engineering Course / Applied Chemistry Course / Bio-Related Chemistry Course

■ Department of Life Science and Biotechnology

Biotechnology Course / Life Science Course

- Contributing to the advancement of cutting-edge technologies by applying chemistry to everything that can be handled at the molecular level
- Researching substances related to life by utilizing the functions and roles of biomolecules such as genes, enzymes, and proteins
- Fostering the development of engineers with a global perspective that prepares them to pursue technologies in diverse fields such as energy, environment, and healthcare

Graduate Schools

13 graduate schools and 2 professional graduate schools with state-of-the-art educational facilities and research system

Graduate School of Law

[Master's Degree Program] [Ph.D. Degree Program] Law and Politics Major

The program offers three distinct courses: a Legal and Political Studies Course aimed at training researchers, a High-quality Professional Research Course focused on developing highly specialized professionals, and an International Collaboration Course that provides instruction in English for international students admitted through special programs*. A flexible and progressive curriculum enables students to tailor their studies according to their interests and aspirations. Faculty members who are active across a wide range of fields provide personalized guidance to each student. The program offers an environment where students from diverse backgrounds, including not only graduates of the Faculty of Law but also working professionals and international students, can challenge and inspire one another as they pursue their research.

*Programs for international students coming to Japan under initiatives such as those by the Japan International Cooperation Agency (JICA), the United Nations High Commissioner for Refugees (UNHCR), and Japanese government scholarships.

Graduate School of Letters

[Master's Degree Program]

General Humanities Major

English Linguistics and Literature / American and British Cultural Studies / Japanese Language and Literature / Philosophy / Art Theory, Art History and Aesthetics / Japanese History / World History / German Studies / French Studies / Geography / Education / Cultural Symbiotics / Film and Media Studies

[Ph.D. Degree Program]

General Humanities Major

English Linguistics and Literature / Japanese Language and Literature / Philosophy / History / German Studies / French Studies / Geography / Education / Film and Media Studies

The program's curriculum spans both the training of specialized professionals and the development of researchers. International academic exchange is promoted through initiatives such as creating the Program for EU-Japanology Education and Research (PEJER) as a minor and implementing a double-degree program with Yeungnam University in South Korea. Since students are expected to publish papers in academic journals and present at academic conferences while enrolled in the graduate school, it's necessary to broaden their knowledge by including lectures from other programs in addition to their own specialization. This graduate school offers a diverse range of programs covering all fields of the humanities and provides detailed support for study and research.

Graduate School of Economics

[Master's Degree Program] [Ph.D. Degree Program] Economics Major

The program offers two courses: the High-quality Professional Research Course, which develops human resources with advanced expertise in economics, and the Researcher Training Course, which fosters the development of future researchers. To meet the needs of diverse students, including working professionals and international students, the curriculum spans five fields: Economist Studies, Public Policy Studies, Regional and International Economy Studies, History and Society Studies, and Business Economics and Finance Studies, with detailed guidance tailored to each graduate student. In recent years, the program has also placed strong emphasis on career support for graduate students.

Graduate School of Business and Commerce

[Master's Degree Program] [Ph.D. Degree Program] Business and Commerce Major

The program strives to cultivate researchers and highly specialized professionals equipped with the theoretical knowledge, practical sense, critical thinking, analytical skills, and expressive abilities that the society of the future will demand. The Researcher Training and Doctoral Program Preparation Course offers a curriculum centered on seminars to help students acquire analytical frameworks and research methodologies, while the Advanced Professional Training Course provides a curriculum featuring numerous lectures by experienced practitioners, designed to develop highly specialized professionals with sharp real-world awareness, flexible thinking skills, and advanced expertise demanded by modern society. In addition, we have introduced the Data Scientist Program and the Tax & Accounting Strategy Program, designed to foster professionals active in tax and finance departments of companies or as certified public tax accountants. Furthermore, the Doctoral Program GDS (Global Data Science Program) will launch in the 2026 academic year.

Graduate School of Sociology

[Master's Degree Program] [Ph.D. Degree Program]

Sociology Major / Social System Design Major / Media Studies Major

Reflecting its goal of cultivating specialists equipped with advanced creative abilities and independent initiative, the program offers courses that encompass both theoretical and practical perspectives. After completing the program, many graduates pursue careers as researchers at universities and research institutes, schoolteachers, or national and local public servants, and in recent years, an increasing number have been finding employment in private companies as well. Both the master's and doctoral programs actively accept international students and working professionals as they work to promote highly specialized research at a diverse and internationally competitive level.

Graduate School of Informatics

[Master's Degree Program] Social Informatics Major / Intelligent Informatics Major

[Ph.D. Degree Program] Informatics Major

The master's program aims to train information specialists with advanced expertise and has established two majors: Social Informatics and Intelligent Informatics. The curriculum adopts an innovative style in which graduate students conduct collaborative research on the latest issues, such as the information society and advanced technologies. For its part, the doctoral program aims to develop information pioneers in the field of information sciences and has established an Informatics Major that integrates the humanities and sciences.

Graduate School of Science and Engineering

[Master's Degree Program]

Engineering Science Major

Mathematics / Pure and Applied Physics / Mechanical Engineering / Electrical, Electronic and Information Engineering Architecture / Civil, Environmental and Applied Systems Engineering / Chemical, Energy and Environmental Engineering Chemistry and Materials Engineering / Life Science and Biotechnology

Mathematics / Pure and Applied Physics / Mechanical Engineering / Electrical, Electronic and Information Engineering / Architecture / Civil, Environmental and Applied Systems Engineering / Chemical, Energy and Environmental Engineering / Chemistry and Materials Engineering / Life Science and Biotechnology

Composed of three majors and their respective fields, the master's program is dedicated to cultivating highly skilled engineers who will contribute to the advancement of our science- and technology-oriented society in the future. Students develop a broad base of knowledge, logical thinking skills, and the ability to identify and solve scientific and technological challenges within each field based on scientific reasoning. The program also promotes international education through initiatives such as English-based courses and double-degree programs with overseas universities. The doctoral program consists of a single major, Integrated Science and Engineering, allowing students to receive guidance from multiple faculty members across different fields.

Graduate School of Foreign Language Education and Research

[Master's Degree Program] [Ph.D. Degree Program]

Foreign Language Education and Research Major

This graduate school specializes in training experts in foreign language education and foreign language professionals. The master's program offers three areas of study: Foreign Language Teaching, which focuses on systematic and comprehensive learning applicable to practice; Intercultural Communication Studies, which explores topics through an interdisciplinary approach; and Interpreting and Translation Studies, which pursues both practice and education. The doctoral program focuses on the full-scale development of researchers in foreign language education. The school also promotes international academic exchange through initiatives such as a double-degree program with Yeungnam University in South Korea and Aston University in the United Kingdom.

Graduate School of Psychology

[Master's Degree Program] Psychology Major / Clinical Psychology Major

[Ph.D. Degree Program] Psychology Major

The Psychology Major offers a comprehensive education based on five areas (Cognitive and Physiological Psychology, Social and Industrial Psychology, Developmental and Educational Psychology, Health and Personality Psychology, and Quantitative and Methodological Psychology) with a strong emphasis on developing research skills and fostering individuals capable of contributing to solving various issues in the field. The Clinical Psychology Major is designed to train professionals who can actively work as licensed psychologists. In addition to developing practical skills, the curriculum is designed to foster the ability to apply scientifically grounded practices and to equip students with research skills necessary for research and development in clinical psychology and related fields.

Graduate School of Societal Safety Sciences

[Master's Degree Program] [Ph.D. Degree Program] Disaster Prevention and Reduction Major

To realize a safe and secure society, it's necessary to establish a new interdisciplinary field of social safety studies that integrates the humanities, social sciences, and natural sciences. This graduate school is committed to accumulating and systematizing safety-related knowledge while fostering the ability to explore disaster prevention and mitigation measures, accident prevention, and crisis management through multifaceted and comprehensive approaches, and to create theories and policies. Additionally, the school has also launched an English-taught doctoral program, the Ph.D. of Disaster Management Program (PDM).

Graduate School of East Asian Cultures

[Master's Degree Program] [Ph.D. Degree Program] Cultural Interaction Studies

Under the Department of Cultural Interaction Studies, three domains of study (East Asian Languages and Visual Representation, East Asian Thought and Organization, and East Asian History and Dynamics) have been established to explore the diverse forms of cultural exchange and interaction in the region with the goal of becoming an international research hub for East Asian culture. Additionally, while promoting international academic exchange through initiatives such as the East Asia Next-Generation Forum, where graduate students from Japan, China, and South Korea present their research findings, and a double-degree program with Yeungnam University in Korea, the program cultivates methods for comprehending the entirety of cultural interaction in East Asia and fosters perspectives that recognize East Asia as a chain of diverse cultural contacts that transcend national borders.

Graduate School of Governance

[Master's Degree Program] [Ph.D. Degree Program] Governance Major

The program aims to cultivate highly skilled public professionals with the ability to identify issues, design policies as solutions, and implement them. Education and research are carried out with a focus on political science, public administration, economics, business administration, and law, fostering collaboration across these disciplines. Students address issues such as regional environmental development, the socioeconomic advancement of Asian societies, and regional revitalization policies as they engage in interdisciplinary and multifaceted learning while tackling more practical policy challenges.

Graduate School of Health and Well-being

[Master's Degree Program] [Ph.D. Degree Program] Health and Well-being Major

While valuing the harmony of mind, body, and lifestyle, the program is designed not only to enhance athletic performance, but also to achieve health and well-being through physical activity and welfare-related social work. It's committed to developing human resources equipped with broad perspectives and practical skills, including highly specialized professionals who will pursue community-based health and life support work, leaders of citizen activities such as NPOs and NGOs, and researchers who will integrate sports and welfare as they address social issues.

School of Law (School of Law Attorney Training Major)

Three-year program for students with a non-law background /
Two-year program for students with a law background

Established in April 2004, the program is designed to train legal professionals with a pronounced sense of humanity and commitment to address contemporary social issues. It produces legal experts who balance theory and practice, possess outstanding human rights awareness, demonstrate creativity in responding appropriately to emerging issues, and are capable of leading the evolving legal society with a global perspective.

School of Accountancy (School of Accountancy Accountant Training Major)

As accounting and auditing systems are being revised to meet global standards, Japan's certified public accountants are increasingly expected to perform at an international level. The primary mission of our School of Accountancy is to cultivate accounting professionals who are well-versed in both theory and practice and capable of succeeding on the world stage.

Undergraduate
Faculties

2026 Spring Semester Enrollment (April)

International Undergraduate Students Entrance Examination

Faculty of Informatics accepts applications in June (for autumn enrollment).

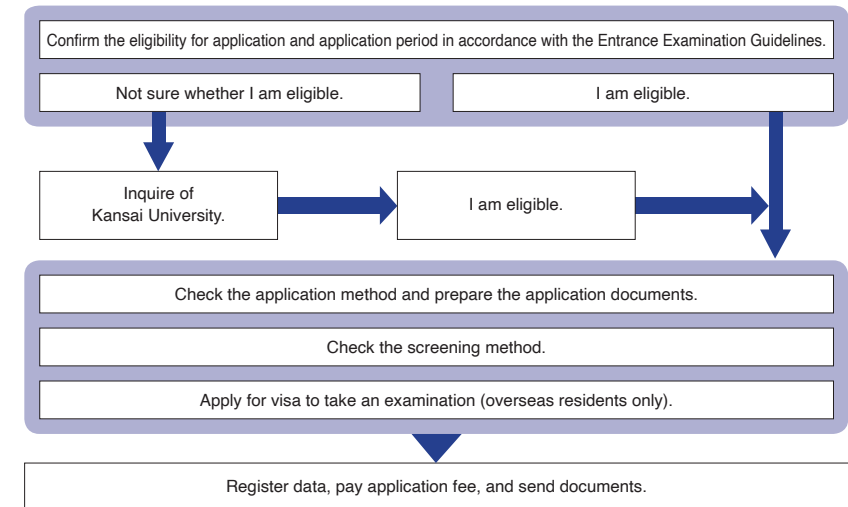

Faculty of Foreign Language Studies does not conduct the International Undergraduate Students Entrance Examination.

For more details, please check the admission guidelines to page of “Admission Information” (International Undergraduate Students Entrance Examination) on the “Kan-Dai web,” which provides general information about entrance examinations.

Eligibility for applicants (September applications • November applications)

- All conditions (1) to (4) below must be met to apply for the entrance examination.
- (1) Applicants who must be of foreign nationality.
- (2) Applicants who satisfy any one of conditions [1] through [6] below and who have completed at least two-thirds of a 12-year curriculum in a country other than Japan (see Note 1), or applicants who satisfy condition [7] below
- Note 1: Applicants who attended a foreign school in Japan or a Japanese school program in another country will be treated as if they had attended school in Japan for the duration of their enrollment. Students who graduated from a high school or secondary school in Japan only (or who expect to do so) are not eligible to take the examination.
- [1] Applicants who have completed a 12-year schooling as part of a normal curriculum in a country other than Japan, or who expect to have done so by March 31, 2026
- Note 2: Meaning applicants who have studied in a country other than Japan for at least two-thirds of the total period of 12 years, less the period shortened due to grade-skipping or otherwise. This includes those who completed the 12th year of a program in less than 12 years by skipping grades, or otherwise.
- [2] Applicants who have passed an examination in another country that certifies them as having knowledge equivalent to someone who has completed a 12-year educational curriculum in that country (including examinations that satisfy national standards) and who will be 18 years of age by March 31, 2026
- [3] Applicants who have completed the secondary curriculum in a country that does not require 12 years of study and who have completed a course designed to prepare students for admission to a Japanese university as designated by the Minister of Education, Culture, Sports, Science and Technology, or who expect to have done so by March 31, 2026
- Note 3: Meaning applicants who spent at least two-thirds of the duration of their secondary education outside Japan.
- [4] Applicants who have completed a program of study at a school equivalent to high school that qualifies as the equivalent of at least 11 years of education as designated by the Ministry of Education, Culture, Sports, Science and Technology in a country other than Japan, or who expect to have done so by March 31, 2026
- Note 4: Meaning applicants who spent at least two-thirds of the duration of their study in a high-school-equivalent program outside Japan.
- [5] Applicants who have earned an internationally recognized qualification that entitles them to attend university (International Baccalaureate, Abitur, Baccalaureate, GCEA level, International A-levels, European Baccalaureate) in a country other than Japan
- [6] Applicants who have completed a 12-year program of study at an educational facility in a country other than Japan that has earned certification for educational and related activities from an international evaluation organization (WASC, CIS, ACSI, NEASC, Cognia, COBIS)
- [7] Applicants who have been certified by the University’s Undergraduate Faculty Council as having qualifications equivalent or superior to those described in conditions [1] through [6] above, and who will be 18 years of age by March 31, 2026
- (3) Applicants who have taken one of the EJU* subjects designated by each faculty in one of the examinations designated by each faculty.
- *EJU... Examination for Japanese University Admission for International Students.
- [Applications in September]** <Faculty of Law> ◆ 2025 1st session (in June)
- <Faculty of Letters / Economics / Sociology / Informatics> ◆ 2024 2nd session (in November)
- ◆ 2025 1st session (in June)
- [Applications in November]** ◆ 2025 1st session (in June) ◆ 2025 2nd session (in November)
- (4) Scores or grades of the English Certificate Examination specified by each faculty to be submitted.
- (Faculties of Letters, Economics, Business and Commerce, Sociology, Health and Well-being, and Business Data Science)
- *Submit EIKEN Test scores or grades over a period of at least two years as of the time of application.
- *You may also submit S-CBT practical English proficiency exam or S-Interview scores.
- *Please do not submit TOEFL iBT® Home Edition scores.
- *If submitting TOEFL iBT® results, only test date scores (the score achieved on the test date) may be used. (You cannot use “MyBest® scores.”)
- *You may not submit TOEFL ITP® test or TOEIC® L&R IP test scores.

STEPS: FROM APPLICATION TO ADMISSION

Application Fee 35,000 yen

Entrance Examination for Transfer International Students

For more details, please check the admission guidelines to page of “Admission Information” (Entrance Examination for International Students [not currently enrolled]) on the “Kan-Dai web,” which provides general information about entrance examinations.

- Eligibility for applicants
- All conditions (1) to (4) below must be met to apply for the entrance examination.
- (1) Applicants who must be of foreign nationality and have completed 12 years of schooling up to high school in countries other than Japan.

(2) Applicants who satisfy any of the following conditions.

· Applicants who have completed a regular 14-year schooling in foreign countries. (Applicants expecting adequate qualifications by the end of March, 2026 are eligible).

· Applicants who will have been registered at a four-year university in Japan for at least two years by the end of March 2026 (excluding periods of leave of absence) and have obtained at least 60 of the credits required for graduation from the faculty and department concerned (including applicants expecting adequate qualifications).

· Graduates of a four-year university, junior college or tertiary college in Japan (Applicants expecting adequate qualifications by the end of March 2026 are eligible).

· Students who have completed a specialized course at a special training school in Japan (Applicants expecting adequate qualifications by the end of March 2026 are eligible).

· Others who are recognized to have academic ability equivalent to or greater than that above by the President after discussion in the Faculty Council.

(3) Applicants who have taken the “Japanese as a Foreign Language (including writing task)” examination in the Examination for Japanese University Admission for International Students (EJU) or obtained Level N1 of the Japanese Language Proficiency Test (JLPT).

*The EJU of FY2024 EJU 2nd Session (implemented in November) or FY2025 1st session (implemented in June) will be screamed.

*Submit Foreign Language Certificate Examination scores or grades over a period of at least two years as of the time of application.

*You may also submit S-CBT practical English proficiency exam or S-Interview scores.

*Please do not submit TOEFL iBT® Home Edition scores.

*If submitting TOEFL iBT® results, only test date scores (the score achieved on the test date) may be used. (You cannot use “MyBest® scores.”)

*You may not submit TOEFL ITP® test or TOEIC® L&R IP test scores.

(4) Applying to the Faculty of Letters, applicants who can submit a Foreign Language proficiency test score or grade as specified by the faculty.
- Application Fee 35,000 yen
- STEPS: FROM APPLICATION TO ADMISSION
- Confirm the eligibility for application and application period in accordance with the Entrance Examination Guidelines.

Not sure whether I am eligible.

Japanese-based Program: Master's Degree Program/ Ph.D. Degree Program

For more details including eligibility to apply, application documents, application procedures, and screening method, please check with the application guidelines of each graduate school and refer to the shared application guidelines (which are available separately). The Clinical Psychology Major of the Graduate School of Psychology (Master's Degree Program) and the Graduate School of Health and Well-being (Ph.D. Degree Program) do not conduct the International Students Entrance Examination. The Graduate School of Business and Commerce (Ph.D. Degree Program), the Graduate School of Science and Engineering (Master's Degree Program and Ph.D. Degree Program), and the Graduate School of Societal Safety Sciences (Ph.D. Degree Program) have English-based degree programs. Please see "English-based Program" on the "Kansai University Graduate School Entrance Examination Information Website."

Eligibility for applicants

[Master's Degree Program] *May vary depending on the desired graduate school and type of entrance examination.

Applicants must satisfy any one of the following (1) to (5) conditions (including applicants expecting being satisfied any one of the following conditions (1) to (4) conditions before enrolling the Graduate School):

- (1) Completed a regular 16-years of schooling outside Japan. (Note 1)
- (2) Graduated from Japanese universities as international students.
- (3) Completed a program for 3 years or more and awarded a degree by an overseas university or school (Note 2) which is recognized as being equivalent to a bachelor's degree. (2016 ordinance of the Ministry of Education, Culture, Sports, Science and Technology, No. 19)
- (4) Completed Specialized Course at Japanese special training schools as international students after the designated date by the Minister of MEXT. The training schools must satisfy the conditions designated by MEXT including that the length of term required for graduation be at least four years.
- (5) Recognized as having scholastic abilities equivalent or superior to the graduates of university through pre-qualificational individual screening of the Graduate School. This requirement shall not apply to foreignnn national who are recognized as having received Japanese regular school education program.

Note 1: Applicants who have been enrolled in the following schools are considered to have the same eligibility conditions as the eligibility for applicants provided that the term is less than four years in total.

- A primary school, a junior high school, a high school, etc. along School Education Law
- A foreign school in Japan
- Overseas educational facilities accredited or designated by the Minister of Education, Culture, Sports, Science and Technology

Note 2: Educational facilities evaluated by those who have been accredited by the overseas government or relevant organization with respect to the comprehensive situation of education and research activities etc., or designated by the Minister of Education, Culture, Sports, Science and Technology.

[Ph.D. Degree Program] *May vary depending on the desired graduate school and type of entrance examination.

Applicants must satisfy any one of the following (1) to (5) conditions (including applicants who are expected to have satisfied any one of the following conditions (1) to (3) conditions before enrolling the Graduate School):

- (1) Obtained a master's degree or a degree equivalent to a professional degree in a graduate school overseas.
- (2) Obtained a master's degree or a degree equivalent to a professional degree in a Japanese graduate school as an international student.
- (3) Completed the course of the United Nations University based on the resolution of the United Nations General Assembly adopted on December 11, 1972, as defined in Article 1, paragraph 2 of the Act on Special Measures, in accordance with the implementation of the agreement on the headquarters of United Nations University between the United Nations and Japan.
- (4) Designated by the Minister of Education, Culture, Sports, Science and Technology (Notification No. 118, Ministry of Education, in 1989)
- (5) In addition, admitted to have a degree equal to or higher than a master's degree by the Graduate School and who will reach the age of 24 before entering the Graduate School. This requirement shall not apply to foreign national who are recognized as having received Japanese regular school education program.

[Graduate Schools laying down conditions on linguistic ability as requirements for application]

M means Master's Degree Program and D means Ph.D. Degree Program.

Graduate Schools

2026 April acceptance and September acceptance

Foreign Research Students Selection Examination

For more details, including eligibility for application, application documents, application procedure, screening method, please confirm the application guidelines for foreign research students.

Foreign Research Student Program

This program is targeted at foreign students who have their own research theme and wish to receive research guidance from a specific graduate school before enrolling Kansai University Graduate school. Although Foreign Research Student is not an official student of Kansai University, a certain number of credits they obtain may be recognized as advanced credits after enrolling if they complete subjects specified by the graduate school and pass their examinations.

Eligibility for applicants

The application qualifications for the **master's course** on page 8 apply. In addition, the applicant must have the consent of the faculty member from whom he or she wishes to receive guidance and must have the Japanese language ability specified by the Graduate School.

Graduate Schools	Level/Score
Law, Economics, Business and Commerce, Informatics, Foreign Language Education and Research, Psychology, Societal Safety Sciences, East Asian Cultures, Governance, Health and Well-being	JLPT: N2 or higher
Letters, Sociology	JLPT: N2 or higher or "Japanese as a Foreign Language" in EJU (including writing task in "Japanese"): 240 or higher
Science and Engineering	JLPT: N3 or higher

(Note) Applicants for admission in the Graduate Schools of Foreign Language Education and Research will be exempt from Japanese Language Proficiency qualification if their prospective advising supervisor approves. In addition, some graduate schools recognize the scores of the Examination for Japanese University Admission for International Students required for entrance examination for Master's Degree Program as eligibility qualification, as long as applicants apply for admission as a regular international student simultaneously. For more details, please check the Application Guidelines for Foreign Research Students.

Application Fee 14,000 yen

*If you apply for admission as a regular international student (in the Master's Degree Program) and as a foreign research student simultaneously, the "Foreign Research Students Selection Examination" application fee will be exempted.

Duration of Enrollment

One year (extension may be allowed in some cases)

Selection Schedule / Graduate schools / Screening Method

Same as the schedule of entrance examinations for the **Master's Degree Program/ Ph.D. Degree Program** on page 9.

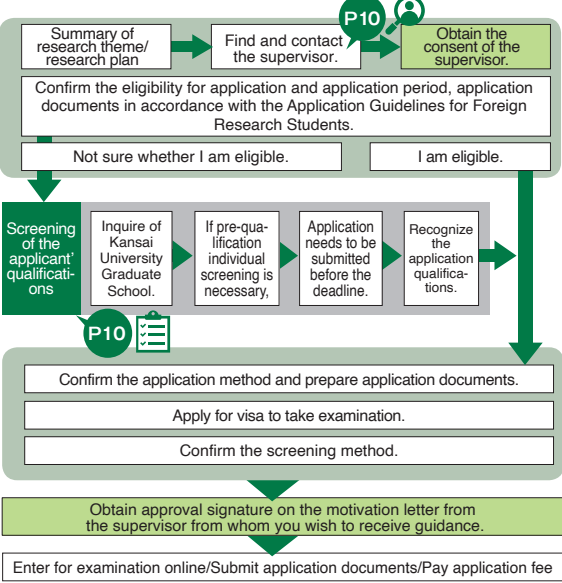

However, for Informatics/Social Safety Sciences/Governance/Health and Well-being Graduate School for the September 2026 intake (July recruitment), the examination will be held on Saturday, July 4, 2026.

Enrollment Period	Exam months	Graduate Schools	Screening Method
2026 April Acceptance	October	All graduate schools	Document selection and oral examination
	December	Foreign Language Education and Research	
	February	All graduate schools	
2026 September Acceptance	July	All graduate schools	

How to search and contact Professors

Kansai University Graduate School Administrators will not search for a professor within their department whose current work closely matches your research or transfer your email to the professor. Please contact the professor whom you would like to have as your academic supervisor. You need to contact potential professors by sending emails or letters directly to them before the admission process starts. (Eligible graduate schools are all graduate schools for the Foreign Research Students Selection Examination, and the Graduate Schools of Informatics, Science and Engineering, Psychology (Psychology Major), Societal Safety Sciences, and Health and Well-being for the International Students Entrance Examination.) For example, the Graduate School Information (Digital Brochure) available on the "Kansai University Graduate School Entrance Examination Information Website" lists the research themes of each faculty member. In addition, you can search researchers by their affiliation, name, specialized field, or keywords on Kansai University System for Academic Information. For more details, please confirm "How to search and contact Professors" on the "Kansai University Graduate School Entrance Examination Information Website."

STEPS: FROM APPLICATION TO SELECTION EXAMINATION

Concurrent Application for Admissions as a Regular International Student and as a Foreign Research Student

You can apply for admissions as a regular international student (in the Master's Degree Program) and simultaneously as an international research student. The oral examination for screening of applicants who apply for both admissions will be conducted simultaneously. The application documents for the "International Students Entrance Examination" and "Foreign Research Students Selection Examination" are different. Please make sure of both application requirements and prepare for your examination.

Application documents for concurrent application

Foreign Research Students Selection Examination	International Students Entrance Examination (Master's Degree Program)
Application form (Concurrent application by international students/foreign research students)	
Academic transcript of the graduating university, etc.	
Certificate of (expected) graduation of the graduating university, etc.	
Research plan	
Certificate of Proficiency in Japanese required by the graduate school	
Copy of Residence Card/Passport	
Motivation letter for Selection of foreign researchers (prescribed form) Note: Please be sure to fill out the form in your own writing.	Motivation letter (prescribed form)
Letter of Recommendation*	—

*Refer to the Application Guidelines for a list of graduate schools that require a letter of recommendation.

Pre-qualification Individual Screening

Based on the application documents, Kansai University will examine the applicant's academic background to determine whether it is equivalent to a Japanese university education program. In some application months, the deadline for pre-qualification individual screening for admission is set at least one month earlier than the application period. First, please confirm the application eligibility of the graduate school to which you wish to apply. If you cannot determine your eligibility for application, please contact us immediately via the "pre-qualification individual screening" link on the "Kansai University Graduate School Examination Information Website.

[Examples whether a pre-qualification individual screening is required]

- Graduates of a junior college or three-year university
- Graduates of Five-year primary school (15 years to university graduation)

For Foreign Research Students Selection Examination

Graduate Schools

2026 School Fees and Other Fees

Some graduate schools are setting three-year courses in Master's Degree Programs as a long-term registration system. The academic fees for students participating in the long-term registration system are defined separately. Please refer to the entrance requirements for each separate graduate school for further details.

Support for International Students

Grant-type scholarships

Kansai University offers a variety of scholarships exclusively for international students, and many students are recipients.

Scholarships offered by the University

Pre-enrollment scholarship for privately financed international students	
Eligibility	New privately financed international students with excellent academic performance who face financial difficulty in continuing their studies *All Ph.D. Degree Program students are in principle eligible for this scholarship.
Duration	1 year
Amount	Depends on each year of enrollment and faculty/graduate school.

Privately financed international student scholarship	
Eligibility	International students in their second year or later with excellent academic performance who face financial difficulty in continuing their studies *All Ph.D. Degree Program students are in principle eligible for this scholarship.
Duration	1 year (Recipients may apply again.)
Amount	Depends on each year of enrollment and faculty/graduate school.

Scholarships from outside sources (awarded based on the recommendation of the University)

These scholarships are awarded by outside foundations to privately financed international students who are recommended by the University. Applicants for scholarships are recruited from among the University's students and recommended based on their academic record and the scholarship's recommendation requirements.

Scholarships from outside sources (awarded based on an open application process)

Outside foundations award these scholarships to students who have applied on their own. The University can provide information about some, while other students must research on their own.

For more information about scholarships for international students, including award amounts and academic performance standards, see the website (<https://www.kansai-u.ac.jp/Kokusai/english/from/support.php?id=scholarship>) of the Division of International Affairs.

Other scholarships accept applications from all students enrolled at Kansai University. For more information, see the Scholarships and Financial Assistance Group's website (<https://www.kansai-u.ac.jp/scholarship/system.html>).

A great variety of dormitory rooms for international students

The University operates four dormitories. In addition to offering a human resource development program, dormitories cultivate a global, multicultural outlook by allowing Japanese and international students to live together. Moreover, dormitories provide support for residents' daily lives, including through resident assistants who play a leading role in social activities at the dormitory. Each of the four dormitories has its own characteristics, and students can choose the dormitory that best fits their vision of the ideal lifestyle.

*Dormitory fees are revised from time to time as necessary.

Global House (Co-ed single occupancy)

- Entrance Fee: JPY 20,000
- Room Rent: JPY 63,000 / Month (Includes electricity, water, bedding lease, and other fees)
- Meals: (Pay-as-you-go)
Breakfast JPY 400 / Dinner JPY 550
- Location: 3-minute walk from the Hankyu Nanao-nishi bus stop

Student International House Shurei-ryo (Co-ed single occupancy)

- Entrance Fee: JPY 15,000
- Room Rent: Single A, JPY 37,000 / Month
Single B, JPY 39,000 / Month (Includes electricity, water, bedding lease, and other fees)
- Meals: (Pay-as-you-go)
Breakfast JPY 280 / Dinner JPY 550
- Location: 10-minute walk from Kandai-mae Station on the Hankyu Railway

Dormitory Tsukigaoka (Women's single occupancy)

- Entrance Fee: JPY 22,000
- Room Rent: JPY 42,000 / Month (Includes electricity, water, bedding lease, and other fees)
- Meals: (Pay-as-you-go)
Breakfast JPY 250 / Dinner JPY 490
- Location: 10-minute walk from Senriyama Station on the Hankyu Railway

Minami-Senri International Plaza International Students Dormitory (Co-ed single occupancy)

- Entrance Fee: None
- Room Rent: JPY 43,000 / Month
- Miscellaneous Fees: JPY 5,000 / Month (Includes electricity, water, bedding lease, and other fees)
- Meals: Self cooking
- Location: 5-minute walk from Minami-Senri Station on the Hankyu Railway

In addition to the above, there is also a dormitory available for international students operated by Kyoritsu Maintenance Co., Ltd. through a business partnership with Kansai University and Kandai Pansee Co., Ltd. For more information, see the International Dormitory's website (<https://www.kansai-u.ac.jp/Kokusai/Dormitory/en/>).

International Student Support Organization

[KU Bridge]

The KU Bridge is a peer community engaging in international exchange activities to serve as a "bridge" between international students and Japanese. It mainly plans and operates international exchange events to support international students from the same perspective as students to enable them to live a fulfilling study life abroad.

[International Student Association]

The International Student Association is a community for international students by international students. It expands networks of international students and creates opportunities to support each other. This Association holds various events to enable international students to get used to their life in Japan as soon as possible.

Learning Support

Japanese Language Support Program

Program	Details	Level
On-demand Learning Support Course for International Students	Provides practical training in a broad range of academic skills necessary for giving presentations on the undergraduate and graduate level.	Advanced
Conversational Japanese Brush-up Seminar	Provides practical training in Japanese conversational skills that are needed in daily life to adapt to Japanese society.	Intermediate to advanced
Japanese Language Academic Literacy Development Seminar, Online Video	Students learn about academic literacy, which is essential for writing undergraduate theses and graduate-level reports, through lecture videos.	Advanced
Japanese Language Tutor/Tutee System	Tutor giving advice and supporting to the tutee (foreign student) with their studies (mainly Japanese) and daily life.	Beginner to advanced
Support for Academic Writing in Japanese (Individual Consultations)	Provides advice on Japanese language, such as sentence expressions and structures, using theses, reports, and other writing assignments brought in by the student.	Advanced

Career Support

Kansai University as a whole strongly supports job hunting activities of international students in Japan.

Many international students wish to find a job in Japan after graduation or academic completion. Japanese companies also want to employ international students who can play an active part globally. However, to find employment in Japan, international students must understand the selection methods and recruitment schedule specific to Japan and carry out their job search in a planned and systematic manner. To that end, Kansai University offers a variety of support.

For more information, please see "JOB HUNTING GUIDEBOOK 2025."

Center for Career Development Program

Events for International Students

Many events specialized for international students are available. International students are encouraged to participate in various events, including conducting job hunting activities in Japan, writing application documents, participating in internships at Japanese companies, preparing for interviews, etc. Among these events, international students can make a satisfying career choice.

Career counseling (priority consultation slots for international students)

International students will be able to consult individually about their concerns or troubles in job hunting activities at the Career Center. (An appointment is required.) Priority consultation slots are available for international students, so please feel free to make use of them.

List of companies at which international students of Kansai University have gone on to work (2021 to 2023)

- Aioi Nissay Dowa Insurance Co., Ltd. ● Accenture Japan Ltd
- Aeonmall Corporation ● Kajima Corporation
- Kyocera Corporation ● Kyocera Communication Systems Co., Ltd.
- Kumagai Gumi Co., Ltd. ● Konica Minolta, Inc. ● Jera Co., Inc.
- Sharp Corporation ● Sumitomo Electric Industries, Ltd.
- Senko Co., Ltd. ● Zensho Holdings Co., Ltd. ● SoftBank Corp.
- Tsubakimoto Kogyo Co., Ltd. ● TDK Corporation
- Terumo Corporation
- Toshiba Lifestyle Products & Services Corporation
- Towata Corporation ● Nitori Co., Ltd. ● Japan Post Co., Ltd.
- Persol AVC Technology Co., Ltd. ● Astemo, Ltd.
- Hitachi High-Tech Corporation ● Fuji Soft Incorporated
- Miki House Co., Ltd. ● Mitsubishi Electric Corporation
- Murata Manufacturing Co., Ltd. ● Ricoh Japan Corporation
- Louis Vuitton Japan K.K. ● Lawson, Inc.

The SUCCESS International Student Job-hunting Support Consortium helps international students find employment in Japan!

The SUCCESS International Student Job-hunting Support Consortium, which is dedicated to helping international students find future careers in Japan as skilled human resources after they graduate, is a consortium of 18 universities from around Japan. The program fosters an understanding of Japanese job-searching activities and Japanese society, which can be difficult for international students to grasp, so that they can determine the path forward that's best for them while experiencing career education, business Japanese education, and internships in a systematic and thorough manner.

- Career education focusing on topics like understanding how to look for a job, analyzing companies, and analyzing oneself
- Business Japanese education designed to help students master the advanced level of business Japanese required by companies
- A diverse selection of internships developed jointly with a large number of companies

These programs are offered in collaboration with numerous companies, economic organizations, and universities nationwide.

Visit the website of the SUCCESS International Student Job-hunting Support Consortium (<https://www.success1.jp/>) for details.

International Students' Message

Second-year student (Ph.D. Degree Program) in the Graduate School of Science and Engineering

Hyu-kuki Hon Country/region: South Korea

Kansai University offers a wealth of facilities necessary for learning and research while encouraging active interaction among students. In addition, there's ample support from the university's specialized and friendly faculty and staff.

I'm studying geo-disaster mitigation engineering, from the field of civil engineering. In particular, my research focuses on soil liquefaction phenomena caused by earthquakes. A range of classes have provided significant support for my studies and research. The class of "Advanced Earthquake Geotechnical Engineering" in particular was directly related to my field of research and proved extremely beneficial. Furthermore, The class of "Advanced Reliability-based Design" helped me broaden my perspective on safety as a disaster prevention engineer.

I haven't participated all that much in on-campus communities since I'm pursuing a highly unique field of study, but I actively take part in off-campus activities such as academic conferences and workshops. I've heard from other international students that Kansai University offers a variety of extracurricular activities, among which sports are particularly popular. This was very appealing to me since I like exercise.

Kansai University offers a range of scholarships for international students, and I was able to receive advice from senior students as well as support from the Division of International Affairs during the application and interview process. Thanks to the university's support, I'm currently a recipient of a scholarship from the Rotary Yoneyama Memorial Foundation. I'm very grateful, as I may not have been able to receive this scholarship without the guidance of more experienced students and Division of International Affairs.

My field, geo-disaster mitigation engineering, seeks to achieve the safe and efficient design of social infrastructure. Unlike buildings designed by private companies, public infrastructure is built with taxpayer money, meaning it's subject to government policies and national budgets. For this reason, I want to become not only a researcher, but also a speaker who can persuade politicians and the public in order to implement national projects that utilize tax revenues more efficiently. To that end, I believe it's important to further enhance my research skills, develop a diverse network of contacts, and gain experience in advanced models of collaboration between research institutions and government agencies. Bearing this in mind, I'm preparing to pursue research in the U.S. after graduating from Kansai University.

Finally, Kansai University offers a variety of programs to support international students in their job-hunting activities. Knowing that there are many alumni who are active in various fields offers motivation and reassurance during your study abroad experience.

Choosing Kansai University is a decision you won't regret, and I hope to see you here. I look forward to supporting you as you take on new challenges!

Fourth-year student in the Department of Economics, Faculty of Economics

Henry Angeline Country/region: Indonesia

Kansai University is a university with comprehensive course offerings where you can encounter a wide range of knowledge and values, and I find it very appealing that it offers opportunities to interact with people beyond your own field of study. The common liberal arts courses taken from the first year let you broaden your perspective by taking classes alongside students from different faculties.

In the Faculty of Economics, where I belong, students are free to choose courses according to their interests, ranging from basic subjects such as microeconomics and macroeconomics, which form the foundation of economics, to fields that analyze the trends of industries and companies, and even international economics, where you can learn in depth about the economic conditions of various countries. One course I found particularly interesting is Economic Development Theory. It not only covers theoretical aspects of economics, but also focuses on the current economic situation, facilitating an in-depth study of developing nations' economies and unique challenges.

Extracurricular activities are also extremely fulfilling, with many opportunities both on and off campus to broaden your interests and skills. Since my first year, I've actively participated in "KU Bridge" events, which bring Japanese and international students together. These events are held on campus and can be attended during free periods or after classes, allowing for efficient use of time and making it easy to participate. Through these activities, I've been able to interact with Japanese students and international students while gaining valuable experience and a deep understanding different cultures and values.

I'm currently receiving two scholarships. One is a Kansai University scholarship for privately-financed international students, and the other is an outside scholarship from the Takeo Yamamoto Memorial Scholarship Fund. The university's Division of International Affairs provides extensive information about scholarships for international students, helping them apply and offering detailed assistance so that each student can focus on their studies.

In the future, I hope to help create a more livable society in my home country, Indonesia, by supporting the development of sustainable infrastructure to underpin the nation's economy. Living in Japan, I've experienced firsthand how well-developed infrastructure leads to a comfortable living environment, which in turn greatly contributes to economic growth. This realization has inspired me to study broad economic theories and acquire practical knowledge in order to promote infrastructure development in my own country.

At Kansai University, there are no boundaries on what you can learn, and students are free to pursue their interests in any field. Studying alongside students from a diverse range of backgrounds provides valuable opportunities to expand your own potential. Why not join me in enjoying a fulfilling student life at Kansai University?
