

Career/Employment Support Program Starting before Coming to Japan for International Student

Call for
Participation

This is a program to develop the abilities necessary for employment and career development in Japan by participating in various courses and seminars related to Japanese business language and career education, and internships. Participants will be provided with scholarships to focus on the program. We will fully support your career development in Japan, so if you are interested, please apply.

Program · Recruitment Outline

Recruitment
Numbers

A maximum of **20** people.

(If there are large numbers of applicants, we will make a selection.)

Scholarships

80,000 yen/month

(Details of the payment period will be explained at the online program information session.)

Notes

① This program is only available for the exchange students spring 2022. Only students whose home university goes through necessary nomination procedures during the nomination period (Mid-September to October 20) are able to apply for this program.

② Students those who wish to apply for this program must check the explanation video and program guidelines before applying.

③ You can apply for the program through the exchange program web application system during November 1 to November 20. Thus, please prepare the necessary documents listed in the program guidelines and submit them through the web application system.

④ Students those who do not have an official certificate to prove their Japanese language proficiency need to take the Japanese conducted by the professor at Kansai University. We will send you details of the test around the end of November.
