

We offer a wide variety of programs to support students with career selection and job hunting, beginning in their first year and continuing until they graduate.

Our University established the Center for Career Development for the purpose of providing career design support and guidance in line with the needs of each of our students. We aim to provide comprehensive student services.

The Center for Career Development offers various career and job seeking support programs while also providing various types of information on career development and job seeking, all of which is intended to help students, from their first year immediately after admission until they graduate. In addition to communicating information and holding events, we also engage with students to help them achieve their personal career goals and offer face-to-face consultation to address students' job-hunting concerns.

Career Development and Job Hunting Support Programs

Advance your skills and start designing your career

Prepare for job hunting & learn about the working world

Decide on a career

First and second year

Increase your knowledge, improve your skills, and learn about work and society. In addition, discover who you want to become and prepare yourself (= career design).

Encountering the real world and developing basic skills as a member of society

- Corporate-collaboration-based career startup program

Seminars and courses aimed at career design

- Career design and mini seminars for first and second year students
- Career design training camp
- Career education courses

Internships

- Kansai University internships, etc.

Third year

Apply for and participate in internships, attend various lectures, and interact with alumni to prepare for purposeful job hunting and take the necessary steps.

Guidance and various seminars on what to do

- Job seeking guidance
- Web test trial sessions
- Internship guidance
- Group mock interviews
- Civil servant guidance
- Job hunting lectures (including info on how to handle industrial / corporate research as well as examination preparation, self-analysis and entry sheets)

Internships (summer, winter)

Seminars to encounter companies, ministries / government offices, and organizations

- Industry research seminars
- Corporate research seminars
- Joint industry (company) research seminars
- Civil servant recruitment examination and work information sessions
- Individual company seminars
- Joint corporate research seminars
- Job hunting resumption lectures

Seminars to interact with alumni and members of society

- Job hunting experience debriefing sessions
- Alumni gatherings

Fourth year

Utilize support programs and participate in seminars and other information sessions as you aim for a career that is right for you.

Support programs for students aiming to work in the global arena

- International internships in the USA, Thailand, and Indonesia

* We also hold various other carefully designed events, including the U/I Turn Job Seeking Seminar (job seeking in or outside one's hometown), job-seeking support seminar for persons with disabilities, and job-seeking support program for international students.
