● 講師 Laurie Reid氏 (ハワイ大学名誉教授)

### ● 講演概要

This presentation will give a brief coverage of the great variety of Philippine languages and cultures, with pictures of some of the true indigenous people, the twenty or so Negrito groups. It will discuss their relationship with the more than 150 Austronesian languages of the Philippines, and will cover what is known about where the people came from and why their languages and cultures evolved into the systems that we find today.
