特任外国語講師によるFDワークショップ

PRACTICAL DIGITAL TEACHING: UNLOCKING STUDENT MOTIVATION, ENGAGEMENT AND LEARNING IN UNIVERSITY SETTINGS

This presentation-workshop will explore the potential of digital teaching in EFL instruction. Digital teaching refers to teaching methods and techniques that minimize the use of traditional paper-based materials and activities in the classroom. By taking advantage of the university LMS and a few other online tools, teachers can create engaging learning experiences that may allow students to use the language in meaningful ways. The presentation will cover a range of topics, including strategies for integrating digital tools into lesson planning, practical tips for incorporating the LMS into textbook activities, testing, and providing feedback. At the end of the presentation, participants will reflect on their own teaching practices regarding the use of online platforms, collaborative tools, and digital assessments to enhance student participation, provide feedback, and promote relevant learning opportunities.
