

Towards A More Fruitful Classroom: Learning From Bloom's Taxonomy

日時: 6月11日(火) 12:20~12:50

場所: 岩崎記念館 4階 F401 教室

講師: オリバー・キングホーン先生

デイビッド・ジョーンズ先生

(関西大学特任外国語講師)

(概要) This practice-oriented workshop will use Bloom's Taxonomy of Learning as a basis to evaluate the efficacy of the learning activities we commonly set up in our classrooms. Participants will be asked to discuss their most popularly used learning approaches and reflect on how these approaches ask learners to access different domains of knowledge and rely on different cognitive processes. It is anticipated that teachers and student-teachers attending the seminar will be thereafter encouraged to re-examine the activities they use in their classes and expand the range of tasks and activities to challenge learners on multiple levels.

※事前申込は不要です。学内の専任教員、非常勤講師、外国語教育に関心のある学部生・院生のご参加をお待ちしています。
